Professional Summary

IT Engineer and Full-Stack Software Developer with 5 years of professional experience combining industry software development and classroom teaching. Strong Python foundation with practical experience in AI/ML, desktop and web application development, and cloud/container technologies. Currently pursuing M.Tech (CSE). Passionate about teaching core CS subjects and supervising student projects that bridge theory with hands-on implementation.

Key Strengths

- Proven ability to teach undergraduate topics (OOP, Data Structures, DBMS, Software Engineering, Machine Learning).
- Hands-on experience developing Windows desktop applications, full-stack web applications, and mobile apps.
- Practical experience with AI/ML model development and deployment using modern Python libraries and frameworks.
- Familiar with version control workflows (Git), microservices architectures, Docker containers, and AWS deployment.
- Strong problem-solving skills, emphasis on project-based learning and industry-aligned curricula.

Technical Skills

Programming Languages: C#, Python, JavaScript, PHP, SQL

Databases: MySQL, Microsoft SQL Server

Frameworks / Libraries: Django, Laravel, .NET, TensorFlow, PyTorch, NumPy, Pandas, scikit-learn, OpenCV

Architecture & Tools: MVT / MVC, Microservices, Docker, AWS, Git

Domains: Windows desktop app development, Web & App development, Artificial Intelligence & Machine Learning, IoT

Education

- M.Tech — Computer Science & Engineering (in progress), Global Engineering College, Jabalpur (M.P.)
- B.Tech — Information Technology, Shri Ram Institute of Technology, Jabalpur (M.P.)
- Diploma — Information Technology, Kalaniketan Polytechnic College, Jabalpur (M.P.)
- Schooling — Delhi Public School, Mandla Road, Jabalpur (M.P.)

Teaching Competencies (Courses)

- Object Oriented Programming (CS-305)
- Data Structures (CS-303)
- Database Management Systems (CS-502)
- Software Engineering (CS-403)
- Basic Computer Engineering (BT-205)
- Python Programming
- Machine Learning (CS-601)
- Internet of Things (CS-801)

Professional Experience

Software Developer — IT Company (2 years)

- Developed and maintained desktop and web applications using C#, Python and PHP frameworks.
- Built database schemas and implemented CRUD and transactional systems using MySQL and MS SQL Server.
- Implemented MVC/MVT patterns for scalable web applications.
- Used Git for version control and participated in collaborative workflows.
- Integrated AI/ML components into production applications and containerized services for deployment.

PGT — Computer Science — Ajay Satya Prakash Public School

- Taught Computer Science to senior secondary students, designed lesson plans and lab sessions.
- Prepared and evaluated examinations and practical assessments.
- Guided students on project work and practical implementation of curriculum topics.

AI / Machine Learning Experience

- Strong background in Python for data processing and model development.
- Hands-on experience with AI/ML projects using TensorFlow and PyTorch.
- Proficient with data libraries and workflows: NumPy, Pandas, scikit-learn.
- Experience in computer vision tasks using OpenCV.
- Familiar with model deployment pipelines using Docker and AWS.

Additional Information

Methodology: Student-centric, project-based teaching with emphasis on practical labs and real-world problem solving.

Languages: English, Hindi.

References: Available on request.
